PRICING GUIDELINE

This is a quick and **BASIC guideline based on previous pricing. Prices are dependent on turn around time, size, and expectations. If you are considering working with me, then you have seen my work. My style is quirky and often cartoony. Though I can bend in a few directions (much more serious and clean for logos – just ask for examples) I am what I am! I promise to work hard and long hours to make you happy. All the work I do will include samples until we land on what you are looking for!*
